Declaration of Intent by Synchrotron Light Research Institute (Public Organization)

Subject: No Gift Policy for Fiscal Year 2026

Synchrotron Light Research Institute (Public Organization) recognizes the importance of addressing corruption, which requires cooperation across all sectors and must be eradicated. With a strong sense of social responsibility and a commitment to treating external parties and stakeholders equitably, we aim to raise awareness and cultivate positive attitudes and values among our executives, officers, and personnel. This includes fostering a strong ethical mindset that rejects any gifts or gratuities arising from the performance of official duties (No Gift Policy).

Accordingly, we hereby declares our intention to perform our duties with integrity and a strong sense of responsibility, affirming that all executives, officers, and personnel shall not accept gifts or gratuities of any kind (No Gift Policy) before, during, or after the performance of official duties, as such actions may lead to corruption or misconduct, both at present and in the future. We are also committed to strengthening and sustaining an organizational culture of integrity and transparency (Organization of Integrity).

When it is necessary to accept gifts or other benefits in accordance with ethics, customary practices, or social conventions, or to maintain goodwill, friendship, or good relationships between individuals, such acceptance must be carefully reviewed in advance to ensure full compliance with applicable laws and regulations. Any acceptance of gifts must be reported to the immediate supervisor. In this regard, particular caution must be exercised to avoid undervaluing or underestimating the actual value of any gift or other benefit received.

This announcement is made for your information and strict adherence.

Issued on 16 December 2025

(Assoc. Prof. Dr. Saroj Rujirawat)

Director, Synchrotron Light Research Institute
